

Digital, web and design schools

The Metropole Nice Côte d'Azur wants to support companies opening offices in the urban area by offering **training courses focused on the future needs of these partners**. The Metropolis is therefore developing a **talent pool** that will create jobs in the industries of tomorrow.

This is particularly true for the key digital sector. The Metropole and more generally the Cote d'Azur ecosystem is home to **a large number of training courses covering information technology, digital and private web**. These training courses in both public and private schools cover a vast field of specialisations which are aimed as much to those under 25 with no or few qualifications (Simplon-Nice school) as future engineering graduates.

Information technology schools - Digital - Web/**PRIVATE**

-  **EPITECH** - Innovation and Information Technology expertise
-  **SUPINFO Nice** – 4-year higher education course, as full time or
-  **Sup de Web NICE** – Web et multimedia school
